Filtration System	Microclean® Mini
Jet Pumps	2
Electrical	230-240 VAC @ 1x16A, 1x32A or 2 out of 3-phase

Acrylic

Porcelain Platinum Celestite Monaco Midnight

Cabinetry

Graphite Slate

*Clean is defined as the removal of microscopic (down to 3-micron level, varies by model) debris from the water. The ClearRay Active Oxygen® System utilizes various technologies to achieve cleanliness. One of them is ozone, which aids in the grouping of smaller debris to form larger clusters that can be more easily captured in the filtration process. All hot tub dimensions are approximate, and shown in: LxWxH. Please see spec book for additional details.
